# JONIK NDOVU FARM

**A DISTINCTIVE HOSPITALITY-LED AGRO-TOURISM DESTINATION IN SEGERA, LAIKIPIA**

Investment Teaser · Tier 2 Diligence Overview · US$2.4M Series A Capital Allocation

| US$2.4M | 12–15 Units | 15.0 Hectares | US$980k (40.8%) | 14.8% IRR |
|---|---|---|---|---|
| TOTAL CAPITAL TARGET | BOUTIQUE CAPACITY | TOTAL SANCTUARY | GREENER ECOSYSTEM | 10-YR PRO-FORMA |

**STRATEGIC WILDLIFE GEOGRAPHY · NEARBY CONSERVANCIES:** Segera borders major neighboring wildlife zones in the Laikipia ecosystem, including **Lewa Wildlife Conservancy** (UNESCO World Heritage rhino stronghold & Grevy's zebra sanctuary) and **Ol Pejeta Conservancy** (East Africa's largest black rhino sanctuary & highest predator density in Kenya). Guests enjoy premier dawn safaris tracking rhinos and lions, returning to peaceful farm-to-table tranquility across our permeable 15-hectare sanctuary.

## EXECUTIVE INVESTMENT THESIS

• **Hospitality-Led Commercial Engine:** 12–15 high-yielding boutique suites ($380–$560 ADR) generate primary returns, complemented by destination dining, culinary masterclasses, and farm gate retail.

• **Land Security:** 8.0 hectares (19.8 acres) already owned by sponsors. Capital funds acquisition of ~7.0 adjacent hectares (17.3 acres) to create an integrated 15.0 ha (37.1 acre) sanctuary.

• **Dual Experiential Magnet:** Big-game safari adjacency (Lewa & Ol Pejeta) paired with regenerative permaculture, artisanal stone baking, and apiaries creates an irreproducible hospitality moat.

• **10-Year Pro-Forma:** Unlevered project IRR of 14.8%, 2.85x equity multiple, stabilized annual gross revenue of US$1.35M+, and strong EBITDA margin of 39.4%.

## GREENER ECOSYSTEM & PRODUCTIVE ASSETS ($980k / 40.8%)

• **Solar-Hybrid Microgrid ($160k):** 60 kWp PV array + 120 kWh LiFePO4 batteries delivering 100% clean, silent off-grid electricity.

• **Circular Biogas ($80k):** Anaerobic digester converting manure & kitchen waste into pressurized cooking gas and organic bio-fertilizer.

• **Hydrology & Precision Drip ($240k):** 10k L/hr solar borehole, 200kL buffer storage, automated drip across 5.3 ha, and reed-bed greywater loop.

• **Earthworks & Orchards ($120k):** Contour bioswales for moisture retention, acacia windbreaks, and productive multi-tier fruit orchards.

• **Culinary Hub & Farm Shop ($240k):** Commercial kitchen, wood-fired sourdough bakery, cold larder, and farm produce retail boutique.

| Category | Allocation | Share | Primary Scope / Assets |
|---|---|---|---|
| Land Expansion (~7 ha) | US$180,000 | 7.5% | Adjacent parcel purchase, registry diligence, perimeter survey |
| **Greener Ecosystem & Productive Assets** | **US$980,000** | **40.8%** | **Solar microgrid, biogas, borehole & drip, swales, animals, kitchen & shop** |
| Boutique Suites & Central Lodge (12–15) | US$850,000 | 35.4% | Stone & timber eco-suites, central lounge, wellness deck, dining pavilion |
| Professional Fees, Licensing & Approvals | US$110,000 | 4.6% | Architectural, engineering, NEMA EIA, county physical planning permits |
| Working Capital & Contingency Reserve | US$280,000 | 11.7% | Pre-opening operating reserves, guest consumables, 6.2% contingency |
| **TOTAL RECONCILED SOURCES & USES** | **US$2,400,000** | **100.0%** | **Disciplined capital plan subject to Quantity Surveyor verification** |
