JONIK NDOVU FARM — US$2.4M CAPITAL BUDGET

Sources & Uses Verification Worksheet · Turnkey Destination Development Schedule

Verification Note: This worksheet reconciles the total fixed capital target of **US$2,400,000**. Line-item allocations are benchmarked against regional East African eco-lodge builds and subject to final Quantity Surveyor (QS) cost certification. The starting 8.0 hectares are already owned and are not a use of new capital. The ~7-hectare adjacent parcel acquisition is fully funded herein.

Greener Ecosystem & Productive Assets Allocation: US$980,000 (40.8% of Total Capex)
Over 40% of the $2.4M capital program directly finances circular and productive assets: Solar Microgrid ($160k), Circular Biogas ($80k), Hydrology & Precision Drip ($240k), Contour Swales & Landscaping ($120k), Animal Housing & Dairy ($80k), Clean Farm Fleet ($60k), and Commercial Catering Kitchen & Farm Produce Shop ($240k). This circular design reduces ongoing energy and food opex by >35%.
